

Air Masters Pit Rules

To promote *FUN* and *SAFETY*

1. Members only in the pit area. Guests may be in the pit area only if accompanied by a member.
2. No pets are allowed in the pit area.
3. Membership or AMA cards are to be placed in the Frequency Control Board at all times when your radio is in use.
4. Place your radio in the Impound Area when not in use unless your radio is operating on 2.4 GHz.
5. Battery charging in or under the shelter is **prohibited**.
6. No fueling or starting motors on the rectangular pit tables.
7. Only the Mobile Green Tables may be used to start and run engines.
8. No taxiing in the pit area.
9. When the wind direction is constant, the Wind Sock will indicate the direction of the flight pattern. During variable wind conditions, please call out takeoff and landing direction.
10. Please call out all takeoffs and landings.
11. The No Fly Zone is indicated by the White PVC Fence.
12. The No-Fly Zone that exists at the North-East end of the field must be observed. Refer to the posted information for additional details.
13. All rotor wing aircraft will fly the pattern when fixed wing aircraft are present.
14. Small lightweight aircraft (includes Foamies and small light weight rotor wing aircraft) flying is allowed at either end of the pit area beyond the White PVC Fence and behind the main flight line or at Control Line Circle if not in use.
15. Dead sticks have priority landing at all times.
16. Please clean your Mobile Green Table before you leave.
